Magnetic black box answer sheet[1]

A.1 (1.0 pt)

[1] Chandan Relekar (IISc, Bangalore), Siddhant Mukherjee (The University of Cambridge, UK), Siddharth Tiwary (IIT Powai, Mumbai), Charudutt Kadolkar (IIT Guwahati), Praveen Pathak (HBCSE-TIFR, Mumbai), were the principal authors of this problem. The contributions of the Academic Committee and the International Board are gratefully acknowledged.

A.2 (2.3 pt)

Dipole moment of the Magnet:

Fill the appropriate quantities.

Graph of [ ] vs [ ]

Slope of the graph: Intercept of the graph:

Dipole moment of the magnet:

Graph on page number:-

B.1 (0.3 pt)

Section	Section number
Aluminium	
Copper	
Wood	

B.2 (2.6 pt)

Terminal velocity of the magnet in the Aluminium section of the pipe:

Canvas grid to draw the setup used:

B.2 (cont.)

Terminal velocity of the magnet in the Aluminium section of the pipe:

Fill the appropriate quantities.

Graph of [ ] vs [ ]

Slope of the graph: Intercept of the graph:

Terminal velocity of the magnet (in cm/s) in Aluminium section:

Graph on page number:-

B.2 (cont.)
Length of the Aluminium section of the pipe:

Mention only if used

Graph of [ ] vs [ ]

Slope of the graph: Intercept of the graph:

Length of the Aluminium section (in cm):

Graph(If any) on page number :-

B.3 (2.2 pt)

Terminal velocity of the magnet in Copper section of the pipe:

Fill the appropriate quantities.

Graph of [ ] vs [ ]

Slope of the graph: Intercept of the graph:

Terminal velocity of the magnet (in cm/s) in copper section:

Graph on page number:-

B.3 (cont.)
Length of copper section of pipe:

Mention only if used

Graph of [ ] vs [ ]

Slope of the graph: Intercept of the graph:

Length of the copper section (in cm):

Graph(If any) on page number:

B.4 (1.6 pt)

Length of the Wooden section of the pipe:

Fill the appropriate quantities.

Mention only if used

Graph of [ ] vs [ ]

Slope of the graph: Intercept of the graph:

Length of the Wooden section (in cm):

Graph(If any) on page number:-
